

# NATIONAL COMPETENCE & EMPLOYABILITY TEST (N.C.E.T-2023)

## CODE OF CONDUCT

Read and fully understand the guidelines before proceeding to the assessment.

- You will be under the surveillance of an Artificial Intelligence driven assessment environment with a unique cheating prevention mechanism. Committing to any malpractice will impact your result for further qualification. you could lose all the marks in the assessment unit or be disqualified from further opportunities.
- Entire duration of your assessment will be monitored through webcam monitoring with eyeball tracking and face recognition system, Window proctoring, plagiarism check, and live tracking of your answers/ responses during the test.
- Terminate test feature is enabled. Ensure you do not move away from the test window. Your test will be auto-terminated/submitted if you move out from test window.
- Eliminate computer interruptions: it is required that any software or hardware (peripheral devices) having the capability to interrupt, intercept or otherwise interfere with the test delivery is disabled during your test session. This includes but is not limited to: Pop-up blockers, Antivirus software, Screen and device capturing utilities, and Alerts (such as reminders, calendars, e-mail, etc.)
- Close all the applications running on your computer. Only the assessment window should be open.
- Impersonating other candidates or yourself by others during the examination will ban the candidature of both the involved entities from further events like – Jobs, Internship coding challenges, Hackathons, scholarship programs, and all other on and off-campus opportunities.
- Do not carry any unauthorized material like notes, study guides, mobile phones, calculators, tablets, and other gadgets or reference material during the examination.
- Do not try to communicate with other candidates verbally or through gestures during the examination.
- Try to avoid any individual/group coming into the webcam monitored area and do not move away from the webcam during the examination; failing in any or both the scenarios will be marked as suspicious by the system.

- Using objectionable, abusive, or offensive language in the answer sections or trying to write/communicate to award qualifying marks is strictly not allowed, and necessary disciplinary actions will be taken.
- Sharing Information using social media – Understand that all the questions and content shown during the assessment are the sole property of the administering entities. Hence, misusing, misguiding, sharing, or attempting to share the information which could be assessment-related will result in serious consequences.
- Understand and avoid plagiarism- Plagiarism involves taking someone else's work, thoughts, or ideas and presenting them as your own. As well as copying from published texts in print or on the internet. plagiarism can refer to essays or pieces of work previously submitted for assessment by others. It is a form of cheating that is verified by the system at the time of evaluation.
- Please strictly follow the above rules during the examination. Breaking the rules by mistake or forgetfulness is still considered malpractice.
